Information leaflet relating to data transmission

In line with the declaration of consent for the data transmission to service providers here you will receive detailed information regarding the type and scope of the data processing by external service providers and laboratories.

If you do not consent this could have negative implications on your treatment. These negative implications could e.g. lead to insufficient treatment. If applicable, the treatment must be refused. We will merely ensure emergency treatment to the necessary extent. You can request more detailed information in this respect from our staff.

Please find a list of all current service providers and laboratories, with which Sana Kliniken des Landkreises Cham GmbH cooperates, below:
